## Jack Gregory Named National NAPA/ASE Technician of the Year

NAPA and ASE named Jack Gregory their 2009 NAPA/ASE Technician of the Year. In October, he was honored by NAPA Auto Parts and the National Institute for Automotive Excellence at their annual convention in Atlanta, Georgia. The Technician of the Year award is presented annually to an individual in the automotive repair and maintenance industry that meets a detailed list of prerequisites. The recipient of the award is determined by a panel of former winners and the president of the ASE. Among 400,000 well qualified applicants the judging committee selected Jack for his decades of automotive experience, endless commitment and service to customers, continual dedication to his employees, industry leadership, and community involvement. Jack has achieved a lifelong dream of

winning the national NAPA ASE Technician of the Year. "Being included with the best of the best is the highest honor I could ever hope to achieve in my automotive career," says Jack. He is an ASE-Certified Master Technician with 13 certifications, including Advanced Level Specialist certifications. Jack's Auto Service is an AAA approved Auto Repair Facility and is part of the ASE Blue Seal of Excellence program.

### WE SERVICE HYBRIDS VEHICLES

Jack's Auto services hybrid vehicles. With increasing gas prices we're seeing many more hybrids on the road. Jack and his technicians are trained in hybrid technology and are looking forward to servicing your hybrid vehicle. Remember that having your car serviced at Jack's does not void any manufacturer warranties. At Jack's the NAPA Tracs system keeps reliable records on the service of your vehicles, so that at any time you can go back to the dealer for warranty work.

### A MESSAGE FROM JACK & LINDA

We'd like to take this opportunity to thank all of you for your support this year. From the friendly faces we see everyday to the volunteers who work with us to support the Amenia Library, the Amenia Lions Club, the Amenia and Wassaic fire departments, and the annual turkey drive — Thank You! Community is about friends and family and what we can do when we work together. Best wishes for health and happiness in 2009!

Sincerely, *Jack & Linda*

### Ask Jack...

Q: Is it true that I have to take my car to the dealer for maintenance and service work in order to maintain the factory warranty?

A: No, this is not true. In fact our federal government has passed a law called the Magnuson-Moss warranty Act that protects your right to choose any competent shop to perform your warranty-related maintenance work. In addition, this law provides you with the option of using any name-brand, quality parts to service your vehicle the manufacturer cannot force you to use only their parts. The only exception to this rule is when the factory parts are defective and fail while still under warranty or have been recalled and thus, are being replaced for FREE. To maintain your new car warranty, all you have to do is have your vehicle regularly serviced at the intervals specified in the owner's manual and/or warranty booklet and keep detailed records of those services.

If you have any questions or concerns about your new car warranty, give us a call!
